### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The Applicant claims a rechargeable, alkaline battery including an anode, a cathode, the electrodes separated by a stack of at least two hydrogen permeable regenerated cellulose films, at least one of the films containing a dispersion of salt particles and the films including domains permeable to hydrogen gas.

In the prior art of record, Kordes et al., U.S. Pat. No. 5,164,274, teach a rechargeable alkaline battery including an anode, a cathode, the electrodes separated by regenerated cellulose film.

However, the prior art of record does not suggest the electrodes are separated by a stack of at least two hydrogen permeable regenerated cellulose films, at least one of the films containing a dispersion of salt particles and the films including domains permeable to hydrogen gas.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Angela J. Martin whose telephone number is 571-272-1288. The examiner can normally be reached on Monday-Friday from 8:00 am to 4:00 pm.
